

Programme/fichiers
_h/fonctions_menu_principal.h

```
graph BT; A["Programme/fichiers_c/fonctions_menu_principal.c"] --> B["Programme/fichiers_h/fonctions_menu_principal.h"]; C["Programme/fichiers_c/metatravers.c"] --> B;
```

The diagram illustrates a file dependency structure. At the top is a grey box representing a header file: 'Programme/fichiers_h/fonctions_menu_principal.h'. Below it are two white boxes representing source files. The left box is 'Programme/fichiers_c/fonctions_menu_principal.c' and the right box is 'Programme/fichiers_c/metatravers.c'. Blue arrows point from each source file box up to the header file box, indicating that both source files include the header file.
